

RESUME

BHAVESH SUTHAR

Contact: 7715915731 | Email: bhaveshsutharb830@gmail.com | Location: Maharashtra, Mumbai

Profile

A passionate programming basics learner exploring Python, C, and Java.

Focused on building logical thinking, foundational coding skills, and understanding how software works.

Actively working on mini-projects to strengthen practical experience and aiming for internships, MCA, and professional certifications to boost industry readiness.

About Me

I am Bhavesh Suthar, a motivated learner who enjoys solving problems and understanding how technology powers modern systems.

I love experimenting with code, learning new concepts daily, and applying them through hands-on practice.

My long-term goal is to become a full-stack developer and work on impactful real-world applications.

Education

BCA – Tilak Vidyapeth University (2nd Year)

Learning computer fundamentals, programming concepts, databases, and web development basics.

Current Learning

- Strengthening programming fundamentals
- Building hands-on projects
- Learning full-stack development concepts
- Exploring databases and backend logic
- Practicing clean code structure and UI layouts

Skills

- Python, C, Java
- HTML, CSS, JavaScript
- Git, VS Code
- Problem-solving, Adaptability, Continuous Learning

Additional Highlights

- Enthusiastic about learning new technologies
- Understands basic project structure
- Focused on clean and readable code
- Interested in UI/UX and portfolio development
- Committed to self-improvement
